We request that all speakers submit their presentation in advance to the TTS 2018 Management System.

To upload your presentation, please follow the instructions below:

When naming your file, please keep the length under 30 characters and do not include special symbols \$ & + , / : ; = ? @ " < > # % { } | \ ^ ~ [ ] ` as this will prevent your presentation from uploading through the submission website.

## 3. BEFORE YOU DEPART

---

### Backup

Please bring a copy of your presentation along with you when you depart for your meeting. Copy your PowerPoint and all movies to a folder on a USB flash drive. PowerPoint 2013/2016 will embed movies by default, however you should still bring the videos just in case. All prior versions of PowerPoint will not embed the movies. They must all be placed in the same folder as your PowerPoint. It is a good practice to keep a second copy of your presentation and your movies in your luggage.

## 6. CONSIDERATIONS FOR MAC USERS

---

**Pictures:** If you use a version of PowerPoint prior to 2008, please be sure any embedded pictures are not TIFF format. These images will not show up in Windows PowerPoint. With PowerPoint 2008 for the Mac, this is no longer an issue, and any inserted image will be compatible. To avoid issues we recommend inserting your images via the insert command not copy and pasting directly into the slide.

**Movies:** Quicktime Pro 7 can natively export MOV, DV, QT, or MP4 files as Cinepack codec AVI files. While the resulting file is Windows compatible, there are add on products to Quicktime that will give a better results.

Divx offers a plug-in for Quicktime 7 Pro that will convert all Quicktime movie formats to Windows compatible divx AVI files. It is available at the following website: <http://www.divx.com/en/products/software/mac/divx-pro>

If you cannot convert the files or have a considerable number of files, please check with a technician in the Speaker Ready Room who can make arrangements to convert the videos, or at the Society's discretion, confirm you will be allowed to present from your own laptop.

**Keynote Users:** Keynote will not be accepted since it cannot be played back on PC. Please export your presentation as a PowerPoint.
